

# SPACE SHOOTER

BY JUAN PABLO

**You must drive your spaceship to dodge the asteroids that come towards you each time faster and bigger. Also you can shoot to destroy them. You will have 3 lives Come on!**

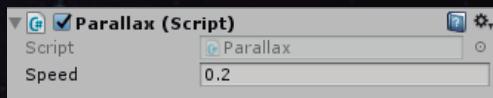

**Shoot**

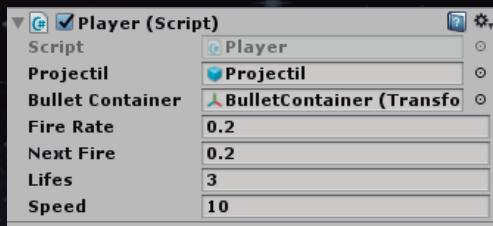

**Move**

**You can configure:**

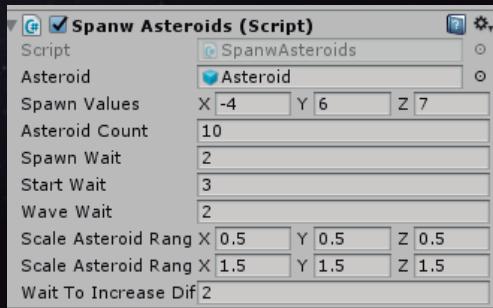

**Speed of the parallax effect. This allows to move the background's texture to simulate an infinite scene with the same texture.**

**Fire rate, you can change the allowed number of bullets per seconds.**

**You can set the player's lives amount.**

**You can set the player's speed.**

**You can manipulate the spawn manager's parameters, timewave, spawn rates, amount of asteroids per wave and the times between waves. As well you can set transform ranges to scale randomly the asteroids.**

LIFE\$!
